

Best Dentists 2014

Peter Kyriakakis, D.M.D.

Specialty: General Dentistry

Gemini Dental Center

1953 S. Bertania Street, Suite #3A • Honolulu, HI 96826 • (808) 791-0200

As part of a family-owned and operated practice, together with his identical twin brother Nicholas, Dr. Peter Kyriakakis has been providing a wide variety of consistent quality dental care for more than a decade. His friendly staff helps patients experience a relaxing and enjoyable visit.

“We are proud to serve families in the community and see them grow healthy,” says Dr. Kyriakakis, who is trained in oral surgery, root canal therapy and implant rehabilitation. A graduate of Rutgers School of Dental Medicine, he became a dentist to merge his interests in science

and medicine. He also attended a general practice residency in New York City.

Begun in 2003, his practice participates in several insurance plans, has office hours six days weekly, and offers the highest quality equipment in a modern, newly rebuilt office in a convenient McCully location. His special skills recently reconstructed a former meth addict’s damaged teeth to enable the patient to eat, live and work healthier.

Dr. Kyriakakis, who volunteers to train community college students as auxiliary dental staff, is honored to be recognized as a 2014 Best Dentist.
